CHARACTER CREATION

Get a sheet of paper, or print out a character sheet, to record all of your character's details. Make sure to do so in pencil, as these details change over time. If your character sheet ever gets too messy, you can always copy the info to a fresh paper!

1. PROFILE

Choose a name, class, and alignment for your character.

Note the creator's name (probably your name) and the date they were created.

1. STATS

Write your current level (1) and max level given by your class. Then write your current EXP (0) and the EXP required to reach the next level.

Roll 3d6, and multiply the result by 10. Write that you have that much money in copper pieces (cp).

Note that there are 10 cp in 1 silver piece (sp), and 10 sp in 1 gold piece (gp), so you may convert your cp into the other forms of currency if you want.

2. ABILITY SCORES

Your character has six ability scores:

1. Strength (**STR**)
2. Dexterity (**DEX**)
3. Constitution (**CON**)
4. Intelligence (**INT**)
5. Wisdom (**WIS**)
6. Charisma (**CHA**)

To determine them, roll 3d6 seven times, and choose six of the resulting values to assign to your ability scores.

If you would rather not roll the dice, assign them from one of the following lists of values:

- 13, 13, 11, 11, 8, 8
- 16, 13, 10, 8, 6, 5

Make sure you have the minimum stat requirement to use your class.

3. PRIME REQUISITES

- If you have at least 13 points in one of your prime requisites, note that you get a 10% EXP boost.
- If you have at least 18 points in one of your prime requisites OR 13 points in two of your prime requisites, note that you have a 15% EXP boost.

2. STATS

Yabec has several stats associated with combat and exploration. Like your ability scores, most of them will improve as your character levels up.

1. **Hit Points / Health Points (HP):** Check your class's hit die. Give yourself HP equal to the max roll of that die.
2. **Attack Value (AV):** Give yourself your class's AV for level 1.
3. **Armor Class (AC):** Give yourself 9AC, the base AC for an unarmored human.
4. **Saves:** Note your physical (PHYS) and magical (MAGI) saving throws based on your class and level.
5. **Class stats:** If your class has any extra stats (like a **Wizard's** spell slots or a **Hollow's** Endurance), note them here.

1. OPTIONAL: A NOTE ON HEALTH

Yabec formally uses a damage up system, meaning instead of losing health, you gain damage. If you would like to play as intended, create a place where you can take note of how much damage you have accumulated.

That being said, your character sheet is your own, and as the person who will be looking at it the most, you may make a judgement call on how you want to keep track of health.

3. SKILLS

1. CLASS SKILLS

Note the skills provided by your class.

2. WEAPONS AND ARMOR

Note the types of armor and weapons you can use.

3. LANGUAGES

Note the languages you can speak.

4. OPTIONAL: LOCKED SKILLS

Optionally, note the skills you haven't unlocked yet but are planning to/are guaranteed to unlock in the coming levels.

4. INVENTORY

Give yourself 10 inventory slots, and any starter items provided to you by your class.

5. HIRELINGS

Yabec allows players to have a certain number of hirelings. See Hirelings for more details.

For now, write your base Renown and Starting Loyalty (4 and 7 respectively). This will later be affected by your **CHA**, among other things.

6. ABILITY SCORE BONUSES

Factor in the bonuses or penalties to your stats from your ability scores.

It is recommended to write your boosts next to the base value of your stat to avoid applying them multiple times.

7. COMPLETE!

Congratulations! You've created your character! Introduce them to the rest of your party.

To finish getting ready for adventuring, head over to the **shop** to buy gear and hirelings, sort out any class-specific setup things, and think about your character's personality. Happy adventuring!

ALIGNMENT

The alignments are: Lawful, Neutral, or Chaotic. This impacts spellcasting and roleplay. Note that some classes have restrictions on which alignment they can be.

Beneath the surface of everyday life, two primeval forces mingle. Their servants see a cosmic harmony permeating the plane, or see only probabilities.

1. MAGIC

Magic affects creatures differently depending on alignment. Divine spellcasters need to be especially aware of their alignment; lawful casters may upset their deity by casting reversed spells, and vice versa. See LINKKKK for more details.

1. ALIGNMENT LANGUAGE

Creatures automatically recognize a certain set of gestures, signs, and

code words, pertaining to their alignment. This allows creatures of common alignment a measure of communication.

Creatures of a different alignment are likely to recognize an alignment language being spoken, but will not understand its content.

1. REVEALING ALIGNMENT

Players must reveal their alignment to the dungeon master, but are not required to reveal to each other.

1. ROLE PLAYING ALIGNMENT

If the character acts too far out of their alignment, the referee may require them to change their alignment and suffer a penalty.

1. CHANGING ALIGNMENT

When changing alignment from Lawful or Chaotic, characters lose 10% of their xp.

600 × 400

HIRELINGS

Hirelings are NPCs that help the party. These include trained animals, humans which can be recruited to carry items and even fight in combat, and henchmen who level and grow like players. You may even be able to persuade monsters, or summon special creatures.

- Use a note card or additional sheet of paper to keep track of hirelings. You can use one card for each, or a large sheet with several.
- Each character can have a maximum number of hirelings equal to their **Renown**.
- Hirelings must have fewer hit dice than their **boss**.
- Hirelings must have their upkeep paid at the start of each session and each 7 days. Monsters with 10 or more loyalty do not need to be paid upkeep.
- The boss must provide for any new adventuring gear, weapons, or mounts.

1. LOYALTY

Hirelings are not mindless slaves. If abused, hirelings might desert, mutiny, betray, or slander their boss.

The starting loyalty score of a hireling is your character's loyalty, and each monster starts with 4 loyalty.

Hirelings with two or less loyalty will betray boss, and have a 4-in-6 chance of reducing their renown by

one. Monstrous, and chaotic hirelings may only cooperate temporarily, betraying their boss once the conditions are right.

1. LOYALTY CHECK

Roll 2d6. The check succeeds if the result is equal to or less than the loyalty score.

2. PERIL

Dangerous tasks are **perilous**. A hireling must succeed a loyalty check or refuse the task. Furthermore, if they take damage or come to any unexpected harm during the task, they lose one loyalty.

Example of peril include:

- fighting a risky and unnesscary battle
- becoming lost in the dungeon
- acting as bait
- probing unknown objects

3. STATS

The dungeon master has stats for animals and monsters.

Hirelings have 19AV, 9AC, and 5HP with saves 8PHYS and 5MAGI.

1. HENCHMEN

Henchmen are sidekicks which can gain EXP and level up like players. There are two ways to gain them:

1. If a hireling survives three sessions, they can become a level 0 henchman.
2. A NPC can be persuaded to become a player's henchmen through roleplay. The dungeon master will decide what level they start at.

- Henchmen have 10 inventory slots.
- Henchmen have a d8 hit die, and calculate HP like players.
- Henchmen go near-death and dismember like players.
- When a boss gains EXP, each of their henchman also get that EXP.

- Instead of upkeep, henchmen are paid with a portion of their boss's treasure. That portion is equal to two divided by their loyalty.
- At 2nd level, they gain one ability. If their boss is a spellcaster, they can memorize one 1st level spell from their boss. Otherwise, they choose one **fighter skill**.
- At 4th level, they gain a second ability. If their boss is a spellcaster, they can memorize one 2nd level spell from their boss. Otherwise they choose one advanced fighter skill.

- You can only have one henchman.

1. HENCHMEN STATS

4	8k	16	11	7
5	16k	16	12	7
6	32k	14	12	7

DOWNTIME

Downtime is an optional system to roleplay the character's actions between adventures, and provides benefits to players.

3. ENHANCING EQUIPMENT

Lose any amount of XP up to the sum of all six ability scores. Add that much XP to an item. When that item has 333 XP, it becomes a +1 enhanced item. When it has 3,333, it becomes a +2 item. When it has 33,333 xp, it has a 3-in-6 chance to become +3, or to explode.

4. COMMUNITY SERVICE

Performing service at the temple has no direct benefit, but may be required as penalty for crimes.

Except for the first time, characters can hire a goon to do the service for them, first costing 100 cp, then costing 1% more, compounding.

Deity disfavor will not be forgiven if you hire a goon.

5. HEALING

A stay in the temple of your alignment costs 100cp, or one downtime worth of service. It cures mundane illnesses, has a 5-in-6 chance of curing mundane toxins, and has a 2-in-6 chance of removing curses.

6. GAMBLING

Play a number of games of Dragon Ante equal to up to thrice your level.

You might also hear rumors. Make two **CHA** checks. For each you succeed, ask the Dungeon Master for a rumor.

Dragon Ante

The buy in for each game is 50cp. Roll a 2d10 and see the result.

If you are a thief, add your level to the roll. If you roll two ones, you still go to jail, and the fine is doubled.

2. WILD WYVERN

Once you win (or lose) 101 cp or more in a single downtime, you are invited to a Wild Wyvern table: an exclusive game for the best players. It is the same as Dragon Ante, with the following modifications:

- Buy in, as well as the pay outs, and penalties are increased by a factor of 100.
- instead of 2d10, use 4d6-1d12.
- Whenever you roll two or more of a kind (except for five fives and four fours), you enter double dragon: wager an additional 500cp, reduce the number of games you'll play by the number of a kind. Then add that many d4s to your roll.

8. SELLING

Try to get a better buy on your treasure.

Each downtime, you can find buyers for treasure equal to 500 cp times your level. If a single object is more valuable than that, you must work for several downtimes to sell it; other players may assist by using their downtime as well.

When you sell the item, roll a d100 on the table, and add your charisma score.

d100	Sale
<20	Robbed! 0%
20-29	Low ball: 75%
30-39	Low ball: 90%

If you get a low ball, you can refuse to sell, and try again next downtime.
